For a limited time Leica HDS is offering Trade-Ins!

Trade-In Program (valid till Dec. 20, 2009)

Models include:

- ScanStation
- ScanStation 2
- HDS3000
- HDS2500 & others

* Trade-In value varies per model. The unit must be on at least the CCP Blue Plan and the remaining maintenance will be transferred over to the new C10 scanner.

The New C10 Offers:

Unprecedented Versatility

- Compact, full dome, accurate, excellent range - take advantage of scanning on more sites for more application
- Use targets, traverse, resection or free-station registration and "geo-referencing" methods as sites logistics dictate
- Even faster scanning makes HDS cost effective for more projects: exteriors and interiors, short and long range
- Onboard or PC control
- GPS and prism options

Major Productivity Advances

- Up to 10x faster full dome scans: now, just minutes
- Several times faster area scans
- Move, set-up and tear-down faster
- Locate targets easier and faster
- Check scan results in the field easier
- Up to 90% field labor savings vs traditional methods

Valuable Cost Savings

- Reduce ownership cost
- Platform designed for incremental upgradeability
- Easy-to-learn, total station-like interface
- Cable-less, with reduced accessory and maintenance costs
- Reduces site re-visited

The "All-in-One" ScanStation C10 delivers a fast payback for your investment in High-Definitions Surveying™ (HDS™) at many levels:

- All critical components in one, portable surveying instrument: full field-of-view, high-speed, high accuracy, long range scanner; rich, graphic controller; powerful camera/video; data storage; hot-swap battery; tilt compensator; and more.
- All-in-One versatility in applications and sites when scanning is profitable.
- One-stop-shopping via the industry's leading vendor: the most comprehensive scanning software, scanner selection, and customer support.
